- 1 x 6
- 1 x 12
- 1 x 18
- 1 x 24
- 2 x 4

*Other sizes also available!*

### PRODUCT GRADES:

**Utility** – Industrial grade. High impact resistance.

**Structural** – Fiberglass reinforced.

**Best Plastic Lumber U.S. (BestPLUS)**, a sustainable plastic lumber manufacturer, provides durable, low-maintenance lumber to a range of industries. We manufacture utility-grade lumber from recycled plastic for use in various application within the transportation industry. Drop shipping and private label programs available.

# TRUCK & TRAILER APPLICATIONS

## **SCUFF BOARDS:**

Recycled plastic scuff boards in the sizes 6", 12", 18" and 24". Available in black, white or specialty colors. Packaged flat or coiled.

## **CAP BOARDS:**

Recycled plastic cap boards (bumper boards) manufactured in both recycled plastic and fiberglass-reinforced plastic. Protect your box and keep your trailer looking great.

Boards are colored to hide scratches and chips.

## **STRINGER/FRAME RAIL SLATS:**

Recycled plastic rail slats provide manufacturers and end users with a consistent material source. Slats resist moisture, reducing repairs and the need to readjust connector bolts.

## **TIE DOWN/RUB RAILS:**

Recycled plastic rails provide a cost effective alternative to wood and metal products. Also available in one continuous length, adding to ease of installation.
